SONY

SDM-HS95P/S

Display

Phenomenal performance

You can be confident that you're getting a high-performance computer display based on Sony's award-winning television technology.

Enhances personal computing

Images come alive with high brightness, exceptional contrast and incredibly fast video response time making this display stand out for multimedia, video and high-speed.

Sony Only Technologies

XBRITE™ LCD Technology optimizes brightness, color, clarity and viewing angle while ErgoBright™ technology optimizes brightness for any lighting condition, reducing eyestrain.

Streamlined profile

Slender rising design blends seamlessly into any space, keeping it looking modern, organized and clutter-free.

Analog and Digital Inputs

Dual inputs ensure compatibility with today's analog and digital systems. Ready for digital computer systems when you're ready to transition.

Satisfy your need for speed. HS-Series Displays give you the high-speed edge you want for gaming, video and multimedia.

Images are responsive and sharp whether you're using your PC for gaming, watching video or everyday computing. XBRITE™ LCD Technology intensifies images to give you eye-popping brilliant video. Digital inputs provide smooth, distortion-free clarity.
